Technical Skills

- Frontend: JavaScript (ES6+), React, Next.js, Vite, HTML5, CSS3, Responsive Design
- Backend & Database: Node.js, Supabase (Database & Auth), SQL
- Tools & DevOps: GitHub, Vercel, Docker (Basic), Python Unit Testing
- Mobile: Flutter, Dart, React Native, TypeScript

Selected Projects

- Smart Auto Loan: This project is excellent because it relates to finance (financial context), and most companies appreciate projects that demonstrate complex business logic.
- Money Tracking App / Body Health Calc: This one is very good because it demonstrates how to manage calculation logic and data processing, which is very important for developers..
